Dear Sir:

We have your favor of the 25th ult., asking on what terms we could bring out for you a volume of some fifty or sixty Spanish folk-songs. The only way in which we ever publish is by taking publications into our own catalogue at our own expense and risk. If, therefore, you would like to submit the book to us for our examination we should be glad to give it careful consideration, and to let you know at once if we find it suitable for our own catalogue. We assume that the book itself will inform us as to whether these folk-songs are Spanish folk-songs which were found in Spain, or those which came over to America with the Spanish colonies, and have to do with the early Spanish life in America. We are much interested in this sort of music as we have a series of volumes called "Songs of the People", which includes some very important volumes.

Very truly yours,  
G. SCHIRMER (Inc.)

  
Sec'y.
